ADVANCED FACIAL SERVICES

Dermasound

A 3-in-1 facial device using ultra-soni technology to exfoliate and increase product penetration and microcurrent technology to firm and tighten.

Microdermabrasion

Smooth skin texture through skin cell turnover to reveal healthy skin.

Microneedling

This treatment creates micro-channels to tighten and plump the skin and increase product penetration.

Chemical Peel

A chemical peel is a skin-resurfacing procedure in which a chemical solution is applied to the skin to remove the top layers.

FACIAL ENHANCEMENTS

***due to the nature of certain facials, not all add-ons are available for all facial services**

****some add-ons are only able to be performed by Master Esthetics students**

Perfecting Plant Peel

Performs like a 30% glycolic peel - without the redness and irritation.

Eye Treatment

This treatment relieves the stress from your eyes as it eliminates puffiness, softens fine lines and diminishes fatigue circles.

Microcurrent

Description will go here.

High Frequency

Increases oxygen to the skin, improving the overall texture, tone, and glow.

Ultrasonic

Uses ultrasonic technology to exfoliate and clean out pores and to push products deeper into the skin.

Microdermabrasion Add-On

Smooth skin texture through skin cell turnover to reveal healthy skin.

BODY TREATMENTS

Aroma Body Wrap Treatment

Dry wrap awakens your senses while scalp and foot massage balances your whole body.

Aroma Back Treatment

Cleanses the skin and restores balance with a masque.
