“Environmental responsibility means adopting business strategies and activities that meet the needs of the enterprise today while protecting, sustaining and enhancing the human and natural resources that will be needed in the future”

As we look back over the past 10 to 15 years, we think it's clear that we have come a long way from the time when business thought that environmental measures were simply a cost. Most now recognize that there are many financial, economic, and environmental benefits to cutting waste and pollution. We have seen a growing awareness that responsible corporate environmental stewardship is also smart business practice. The corporate landscape is filled with examples of positive environmental action yielding positive results on the bottom line.

We believe companies that take advantage of environmental opportunities can gain a competitive advantage over their peers through cost reductions, quality improvements, increased profitability, and access to new and growing markets. Sustainable development is good business in itself. It creates opportunities for suppliers, developers of environmentally safer materials and processes, firms that invest in eco-efficiency, and those that engage themselves in social well-being. We strongly believe these companies will have a competitive advantage. They will earn their local economy's goodwill and see their efforts reflected in the bottom line.

Over the last decade, we have seen many polls confirming the importance of the environment to Americans.

Only an irresponsible company would dismiss this trend as a passing fad or fail to recognize the need to integrate environmental considerations into every aspect of its business. Environmental excellence has to become part of strategic thinking. It is in our best economic interests to do so. In fact, whenever we are forced to change, we often find opportunities.

A new study by Winslow Management Company adds to the evidence that companies that are good to the environment are also good to their shareholders, partners, and clients. And in our case students.

So as we face the next generation of environmental challenges, we must do so together. We must engage the many minds and listen to the many voices that share our determination to discover the best solutions to our complex problems. Our business practices impact the environment in several ways. We therefore will seek to conduct our business in a manner that protects and sustains the environment. We look forward to exploring ways that we can work with Aveda to advance toward our common goals. We want a partnership with someone who shares our same goals and values.

Our institute will be committed to the conservation, sustainable use and enhancement of the local, and global environment for the present and for the future. We will meet our commitment through leadership by example in education, environmentally responsible practices and through equitable and participatory partnerships. Aveda Institute is committed to environmental responsibility in the areas of the natural environment; development, design and management of the built environment, and resource conservation.

Education must strive to honor systems which encourage a public vision of inclusive human societies dedicated to enhancing the social, intellectual and spiritual growth of all people.

It should encourage the celebration, unity and diversity of life, and recognize the need to maintain a balance between the human uses of natural wealth and the regenerative limits of the earth's ecosystem for the benefit of present and future generations.

Cosmetology educational institutions have a pivotal role in the promotion of environmentally sustainable management, i.e. management which is appropriate to the cultural and historical context of the society where it takes place, and where economic and social objectives are achieved within the limits of ecological systems. The commitment to environmental sustainability is an ethical commitment. Education for sustainability therefore requires academic staff to consider promoting it where appropriate in their teaching.

Sustainability should be practiced by every member of academic and general staff in each of the areas for which they have responsibility. The development and operation of Aveda Institute must allow for a clean, safe and healthy environment for members of Aveda Institute and community. This will be achieved through the avoidance, remediation or mitigation of any adverse effects of Aveda Institute's activities upon the natural and built environment and the local community.

Aveda Institute will enhance amenity and aesthetic values at Aveda Institute. This will include efforts to:

- Ensure that buildings are designed to incorporate and enhance the use of open and green space;
- Encourage the use of environmentally responsible transportation and provide facilities for that use; (light rail)

Aveda Institute will minimize waste and other pollution discharges from Institute facilities. This will include efforts to:

- Establish environmentally responsible and appropriate purchasing practice;
- Promote the efficient use of Institute classrooms, clinic floor, equipment, resources, materials and utilities;
- Undertake a comprehensive waste management program to reduce the quantities of waste being generated and, where possible, reuse or recycle wastes which are still produced;
- Energy provider will conduct an audit of facility's energy use
- Use equipment with energy saving features
- Use compact fluorescents
- Insulate pipes and water heaters
- Install lighting controls with occupancy sensors
- Ensure all wastes are properly managed and handled, particularly hazardous materials.
- Integrate environmental considerations into our business planning and decision making processes.
- Comply with all applicable legal and regulatory requirements and, to the extent we determine it appropriate, adopt more stringent standards for the protection of our employees, students, and the community which we live in.
- Provide regular communications to, and training for, employees and students to heighten awareness of, and pride in, environmental issues.

In closing, without the active involvement at the corporate level it would be difficult to implement sustainable business practices. As, Horst Rechelbacher stated, "We are committed to working for these ends by expressing our values and serving as agents of change in our workplaces, with our families and friends, and in our communities. We believe that the microscopic actions of single individuals have the power to change the course of human civilization. We aim to help steer society in a more sustainable direction for our benefit and the benefit of generations to come".

We are excited for you to begin a partnership with a corporate culture that has the same values, beliefs, and philosophies as we do. We look forward to developing an Aveda Institute Avondale and bringing our values and beliefs to help our environment.

Satisfactory Academic Progress Policy

The Satisfactory Academic Progress Policy is consistently applied to all students enrolled at the Aveda Institute. It is printed in the catalog to ensure that all students receive a copy prior to enrollment. The policy complies with the guidelines established by the National Accrediting Commission of Career Arts and Sciences (NACCAS) and the federal regulations established by the United States Department of Education. The academic year is defined as 900 hours in a 27 week period.

Evaluation Periods

Students are evaluated for Satisfactory Academic Progress as follows:

Cosmetology-450 (wk 14), 900 (wk 29), 1200 (wk 38) scheduled hours
 Cosmetology PM 450 (wk 18), 900 (wk 36), 1200 (wk 48) scheduled hours
 Esthiology 300 (wk 9) scheduled hours
 Esthiology PM 300 (wk 12) scheduled hours
 Massage Therapy (wk 10) 350 scheduled hours
 Cosmetology/Esthiology Educator 175 (wk 5) scheduled hours
 Cosmetology/Esthiology Educator 175 (wk 7) scheduled hours

Transfer Students- Midpoint of the contracted hours or the established evaluation periods, whichever comes first.

Evaluations will determine if the student has met the minimum requirements for satisfactory academic progress. The frequency of evaluations ensures that students have had at least one evaluation by midpoint in the course. Progress records are maintained by institution and furnished to students at each evaluation period.

Attendance Progress Evaluations (Quantitative) Pace

Students are required to attend a minimum of 88% of the hours possible based on the applicable attendance schedule in order to be considered maintaining satisfactory attendance progress. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. At the end of each evaluation period, the school will determine if the student has maintained at least 88% cumulative attendance since the beginning of the course which indicates that, given the same attendance rate, the student will graduate within the maximum time frame allowed. Standard rounding rules apply. E.g. 66.5% is rounded up to 67%

≥88% satisfactory
 ≤87% unsatisfactory

Academic Progress Evaluations

The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic learning. Students are assigned academic learning and a minimum number of practical experiences. Academic learning is evaluated cumulatively. Practical assignments are evaluated as completed and counted toward course completion. At least two comprehensive practical skills evaluations will be conducted during the course of study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school. Students must maintain a written grade average of 88%. Numerical grades are considered according to the following scale:

96%-100% High Honors
 88%-95% Satisfactory
 <88% Unsatisfactory

Maximum Time Frame

The maximum time (which does not exceed 114% of the course length) allowed for students to complete each course at satisfactory academic progress is stated below:

Maximum Time Allowed

Course	Full time, 31 hrs/wk - 1500 Hours
Cosmetology	55 Weeks 1710 Scheduled Hours
PM Cosmetology	Full time, 25 hrs/wk - 1500 Hours
	68 Weeks 1710 Scheduled Hours
Esthiology	Full time, 31 hrs/wk - 600 Hours
	22 Weeks 684 Scheduled Hours
PM Esthiology	Full time, 25 hrs/wk - 600 Hours
	27 Weeks 684 Scheduled Hours
Massage Therapy	Full time, 31-38.75 hrs/wk - 700 Hours
	23 Weeks 798 Scheduled Hours
Cosmetology/Esthiology Educator	Full time, 31 hrs/wk - 350 Hours
	13 Weeks 399 Scheduled Hours
Esthiology Educator	Full time, 25 hrs/wk - 350 Hours
	16 Weeks 399 Scheduled Hours

The maximum time allowed for transfer students who need less than the full course requirements will be determined based on 88% of the scheduled contracted hours. Students exceeding Max Time Frame will be terminated from the program and will be permitted to apply for re-enrollment on a cash-pay basis.

Determination Of Progress Status

Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. Students will be notified of their Satisfactory Academic Progress Determination at the time of each of the evaluations. Students deemed not maintaining Satisfactory Academic Progress may have their Title IV Funding interrupted, unless the student is on warning or has prevailed upon appeal resulting in a status of probation.

Warning

Students who fail to meet minimum requirements for attendance or academic progress are placed on warning and considered to be making satisfactory academic progress while during the warning period. The student will be advised in writing on the actions required to attain satisfactory academic progress by the next evaluation. The student may continue to receive Title IV aid for one payment period during the warning period without an appeal. If at the end of the warning period, the student has still not met both the attendance and academic requirements, they will be placed on probation and, if applicable, students will be deemed ineligible to receive Title IV funds and VA Educational Benefits

Probation

Students who fail to meet minimum requirements for attendance or academic progress after the warning period will be placed on probation and considered to be making satisfactory academic progress while during the probationary period, if the student appeals the decision, and prevails upon appeal. Additionally, only students who have the ability to meet the Satisfactory Academic Progress Policy standards by the end of the evaluation period may be placed on probation. Students placed on an academic plan must be able to meet requirements set forth in the academic plan by the end of the next evaluation period. Students who are progressing according to their specific academic plan will be considered making Satisfactory Academic Progress. The student will be advised in writing of the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the probationary period, the student has still not met both the attendance and academic requirements required for satisfactory academic progress or by the academic plan, they will be determined as NOT making satisfactory academic progress and, if applicable, students will not be deemed eligible to receive Title IV funds and VA educational benefits.

Re-Establishment Of Satisfactory Academic Progress

Students may re-establish satisfactory academic progress and Title IV Aid and VA funding, as applicable, by meeting minimum attendance and academic requirements by the end of the warning or probationary period.

Interruptions, Course Incompletes, Withdrawals

If enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as prior to the leave of absence. Hours elapsed during a leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student's cumulative attendance percentage calculation. Students who withdraw prior to completion of the course and wish to re-enroll will return in the same satisfactory academic progress status as at the time of withdrawal.

Appeal Procedure

If a student is determined to not be making satisfactory academic progress, the student may appeal the determination within 10 calendar days. Reasons for which students may appeal a negative progress determination include death of a relative, an injury or illness of the student, or any other allowable special or mitigating circumstance. The student must submit a written appeal to the school on the designated form describing why they failed to meet satisfactory academic progress standards, along with supporting documentation of the reasons why the determination should be reversed. This information should include what has changed about the student's situation that will allow them to achieve Satisfactory Academic Progress by the next evaluation point. Appeal documents will be reviewed within 10 days of submission. The student will be notified of the plan of action within 5 days of the determination. If the student prevails upon appeal, the satisfactory academic progress determination will be reversed and federal financial aid will be reinstated, if applicable. The appeal and decision documents will be retained in the Student File.

Noncredit And Remedial Courses

Noncredit and remedial courses do not apply to this institution. Therefore, these items have no effect upon the school's satisfactory academic progress standards.

Transfer Hours

With regard to Satisfactory Academic Progress, a student's transfer hours will be counted as both attempted and completed hours for the purpose of determining when the allowable maximum time frame has been exhausted. SAP Evaluation Periods are based on contracted hours at Aveda Institute.

Leave of Absence (LOA) Policy

If a Student desires to take a leave of absence from his/her studies, then the following policy will be in effect:

1. The request must be made in advance of the leave. The Student provides requested documentation to Student Services and the Director and will be reviewed on an individual basis.
2. The request must be made in writing and the reason(s) for the leave must be specified. Medical, administrative, financial, and personal reasons for LOA requests will be considered.
3. The leave request must contain the Student's signature.
4. The leave of absence does not exceed, together with any additional LOAs previously granted, 180 calendar days in a 12-month period.
5. In the event the Student cannot make the request in advance (due to an unforeseen circumstance), then the Institute may still allow a leave. The beginning of the leave will be determined as the first date the Student was unable to attend the institution because of the accident and an end date will be noted that will not exceed the 180 day maximum. The Institute will document the reason(s) for its decision and collect the request from the Student at a later date.
6. There must be a reasonable expectation that the Student will return from the LOA.
7. The Student shall not owe any additional fees during any approved leave of absence and will not be granted any additional financial aid assistance as a result of any extension of the term of this contract as a result of any approved leave of absence.
8. If enrollment is temporarily interrupted for a leave of absence, the Student will return to class in the same progress status as prior to the leave of absence.
9. Hours elapsed during a leave of absence will extend the Student's contract period and maximum time frame by the same number of calendar days taken in the leave of absence and will not be included in the Student's cumulative attendance percentage calculation. Changes to the contract period on the Enrollment Agreement must be initiated by all parties or an addendum must be signed and dated by all parties.
10. A leave of absence will be granted at the discretion of the administrative board. Students who withdraw prior to the completion of the course and wish to re-enroll will return in the same satisfactory academic progress status as the time of withdrawal.
11. A Student granted an LOA that meets these criteria is not considered withdrawn, and no refund calculation is required at that time;
12. If the Student fails to return from the approved LOA, or takes an unapproved LOA, the student will be withdrawn. The withdrawal date for the purpose of calculating a refund is always the Student's last date of attendance.
13. If an enrolled Veteran deploys, they will be placed on an administrative Leave of Absence (please see Veteran's Affairs Leave of Absence/Re-Admission Policy)

Title IV Policy

Verification Policy.

- All students selected for verification must provide to the Financial Aid Administrator the following information:
 - Use the IRS Data Retrieval Tool within the FAFSA or
 - Provide a copy of their IRS Tax Return Transcript
 - Signed Verification Worksheet

Documentation must be received and verified before any aid is awarded. All documentation must be received within 14 days and no later than the start date the student wishes to be a part of. If a student is unable to provide the verification documents within the time frame, the student must meet with the Financial Aid Administrator to request an extension (an extension must be requested in writing from the student within 14 days as stated above). For Pell Grant eligibility, the student must provide acceptable verification documentation no later than the date established each year by the Secretary of Education, or 120 days after the last date of the student's enrollment, whichever is earlier.

- If a student fails to provide verification documentation within the guidelines set forth in paragraph 1 above, student financial aid will not be awarded or disbursed.
 - If the student's EFC changes as a result of verification and results in a change in the award, the student will be notified by mail or email.
 - If any of the student's information is found to be incorrect, the school will electronically process the correction, or notify the student to correct through his/her FAFSA.
 - Department of Education regulations (34 CFR 668.16(g)) require schools to refer to the Department's Office of Inspector General any credible information indicating that an applicant for Title IV aid may have engaged in fraud or other criminal misconduct in connection with his or her application. The school will report any suspected fraud to OIG at 1-800-MISUSED.
- (2) Treatment of Title IV Aid When a Student Withdraws
The law specifies how schools must determine the amount of Title IV program assistance that you earn if you withdraw from school. The Title IV programs that are covered by this law, as they pertain to Aveda Institute are: Federal Pell Grants, Federal Direct Loans, PLUS Loans.

Title IV program funds will be returned in this order:

- Unsubsidized Direct Loans (other than Direct PLUS Loans)
- Subsidized Direct Loans
- Direct PLUS Loans
- Federal Pell Grants for which a return of Title IV funds is required
- Iraq and Afghanistan Service Grants (IASG)

When you withdraw during your payment period, the amount of Title IV program assistance that you have earned up to that point is determined by a specific formula. If you received (or your school or parent received on your behalf) less assistance than the amount that you earned, you may be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned by the school and/or you.

The amount of assistance that you have earned is determined on a pro rata basis based on the scheduled hours/credits as of your date of withdrawal. For example, if you were scheduled to complete 30% of your payment period at the time you withdrew, you earn 30% of the assistance you were originally scheduled to receive. If more than 60% of the scheduled hours of the payment period have passed at your date of withdrawal, you earn all the assistance that you were scheduled to receive for that period.

If you did not receive all of the funds that you earned, you may be due a post-withdrawal disbursement. A Post Withdrawal Disbursement must be made from available grant funds before available loan funds. If the post-withdrawal disbursement includes loan funds, the school must get your permission before it can disburse them. You may choose to decline some or all of the loan funds so that you don't incur additional debt. The school may automatically apply all or a portion of your post-withdrawal disbursement (including loan funds, if you accept them) for tuition, fees and books/supplies. For all other school charges, the school needs your permission to use the post-withdrawal disbursement. If you do not give your permission (which some schools ask for when you enroll), you will be offered the funds. However, it may be in your best interest to allow the school to keep the funds to reduce your debt at the school.

There are some Title IV funds that you were scheduled to receive that cannot be disbursed to you once you withdraw because of other eligibility requirements. For example, if you are a first-time, first-year undergraduate student and you have not completed the first 30 days of your program before you withdraw, you will not receive any FFEL or Direct Loan funds that you would have received had you remained enrolled past the 30th day. If you receive (or the school or parent receives on your behalf) excess Title IV program funds that must be returned, the school must return a portion of the excess equal to the lesser of:

- Your institutional charges multiplied by the unearned percentage of your funds, or
- The entire amount of excess funds
An R2T4 calculation may determine that both the school and student may need to return funds to the Title IV Federal Aid Program. If the R2T4 calculation determines an amount of Title IV aid is due from the student, the student must repay the overpayment unless the amount owed is less than \$50.00.

If the school is not required to return all of the excess funds, you must return the remaining amount. Any loan funds that you must return, you (or your parent for a PLUS Loan) repay in accordance with the terms of the promissory note. That is, you make scheduled payments to the holder of the loan over a period of time.

Any amount of unearned grant funds that you must return is called an overpayment. The amount of a grant overpayment that you must repay is half of the grant funds you received or were scheduled to receive. You must make arrangements with the school or the Department of Education to return the unearned grant funds.

The requirements for Title IV program funds when you withdraw are separate from any refund policy that the school may have. Therefore, you may still owe funds to the school to cover unpaid institutional charges. The school may also charge you for any Title IV program funds that the school was required to return. A copy of the school's refund policy is contained in the School Catalog.

Withdrawal Procedure

The requirements and procedures for officially withdrawing from school are: If a student wishes to withdraw from Aveda Institute they must first notify their educator via written or verbal notice. Secondly, the Student will need to provide a brief, written explanation of why they wish to discontinue their education to the Student Services Administrator. The date upon which the Student Services department receives the written notification will be the date of determination for withdrawal.

If a student is not in communication with the school during the absence, the date of determination will be the 14th consecutive calendar day of absence for the purpose of the R2T4 process. The R2T4 worksheet will consist of the last day of attendance and a determination date of the 14th day of absence for the purpose of beginning the calculation process. All funds owed to Department of Education will be processed and returned beginning on the 30th day of absence and no later than 45 days from the date of determination.

Post Withdrawal Disbursement (PWD)

- A PWD is due when the amount of Title IV aid earned is greater than the amount of Title IV aid disbursed. The actual amount of the PWD is the difference between the amount of Title IV aid earned and the amount of Title IV aid disbursed.
- If outstanding charges exist on the student's account, the school may credit the student's account with all or a portion of the PWD. However, if Title IV loan funds are used to credit the student's account the school must first notify the student/parent and provide the opportunity to cancel all or a portion of the loan.
- Any amount of a PWD that is not credited to the student's account must be offered to the student within 30 days of the date of that the school determined that the student withdrew. The offer must be made in writing and will also notify the student that no PWD will be made if the student does not respond within 14 days of the date that the school sent the notification. The notification will also inform the student that they may accept or decline some or all of the PWD that is not credited to the student's account.
- If the student responds within 14 days the PWD funds will be disbursed as soon as possible but no later than 180 days from the date that the school determined that the student withdrew.
- If the student responds late, the school may choose to make the PWD at its own discretion depending on the circumstances. The student is reminded that the school has no obligation to make a PWD after the 14-day timeframe.
- Post withdrawal disbursements are applied to the student account first, and any resulting credit balance will be disbursed to the student as soon as possible and no later than 14 days from the date of disbursement.

- assisting elderly and disabled guests;
- keeping all aisles and areas around work stations free from personal items and debris; and

For all minor or serious accidents, Security personnel must be called to the scene to gather the following information and submit a written report to the school's administration:

- name, address, phone number of the injured person;
- name of student(s) and educator working on the guest (if applicable);
- date and time of accident;
- description of how the accident happened; and
- name, address, phone number of other witnesses to the accident

Medical Emergencies and Accidents

It is the goal of the Aveda Institute to provide and maintain a safe and nonviolent academic and working environment. In an effort to consistently reach this goal, we have established the following procedures in the event that a student witnesses or becomes involved in an occurrence.

Emergency (medical)

Notify your Team Lead immediately, in case of a medical emergency such as:

- serious fall
- apparent heart attack
- unconsciousness
- chemical product; (spills in the eye or swallowing)
- violent acts, assault, or rape

The staff must provide the following information:

- nature of medical problem
- address of the building
- location of the person in the building
- notify the Administrative personnel of the location and nature of the accident
- stay with the injured person
- have someone meet the Emergency personnel
- keep the area clear of bystanders

Non-Emergency (medical)

All accidents must be reported to the Director. The Team Lead or personnel will attend to the injured guest or student and determine if professional medical attention is required. If there is any doubt, we recommend the injured person see a doctor.

Bomb Threat/Active Shooter

In case of a bomb threat at the Aveda Institute:

- immediately contact the Police or Administrative personnel;
- lock or barrowade doors. Only evacuate the building when directed by the Police or Administrative personnel; and
- remember in all situations to remain calm.

Fire Drills

From time to time, fire drills will be conducted to prepare for an emergency. Everyone must follow normal procedures in evacuating the building. Only Security personnel will give clearance to re-enter the building upon completion.

Fire

The Aveda Institute has an alarm monitored system that is directed to the Fire Department. Whenever a fire is detected, a continuous siren will sound.

In all cases when the fire alarm sounds, Students and staff must:

- instruct all guests to evacuate the building;
- assist the guests who need help evacuating;
- request assistance for disabled guests to evacuate down the stairs;
- evacuate the building immediately;
- re-enter the building only when the Fire Department or Security has given clearance.

Escape Route

Floor plans are posted throughout Aveda Institute. Each plan will show a direct escape route. Please familiarize yourself with the escape routes in designated student areas.

Severe Weather Warnings

Based on weather-service information the building management will make a decision on when to evacuate team members, students, and guests.

Building Security

The Aveda Institute provides building security for Students who may need assistance in case of an emergency. Please contact your educator for information on how to contact security.

Campus Security Policy

By October 1 of each year, every enrolled Student will receive a current campus security information form explaining the updated campus security policies, rules and regulations. A copy of this document and a crime log are kept in the Campus Director Office.

Please see the latest report and policy, under health and safety using the link below:

<https://avedainspiregreatness.com/about-us/consumer-information-2/>

When calling 911, emergency personnel will automatically be dispatched. If the injured person wishes to be taken to a specific emergency room, a staff member must tell the emergency personnel when they arrive. Students must assist in documenting the incident and forwarding the paperwork to the administrative offices.

Drug Free School and Work Place

This institution embraces the spirit of the public law that requires schools to provide a drug-free campus and work place. The school will abide by the law as outlined in the accompanying policy. As part of our institutional philosophy, we are dedicated to the advancement and well being of the population we serve. As such, all students and team members are encouraged to abstain from the use of illegal drugs and irresponsible use of alcohol.

Recent federal anti-drug laws could affect a number of areas in the lives of our students and team members. Students could lose eligibility for financial aid, or be denied other federal benefits such as Social Security, retirement, welfare, health, disability, and veterans benefits. The Department of Housing and Urban Development, which provides funds to states and communities for public housing, now has the authority to evict resident members of their household who are involved in drug-related crimes on or near the public housing premises. Businesses could lose federal contracts if the company does not promote a drug-free environment. Finally, a record of a felony conviction in a drug-related crime may prevent a person from entering certain careers. Drugs and alcohol can be highly addictive to the body and can cause harmful effects to virtually every aspect of a person's life: i.e., relationships, family, job, school, physical and emotional health. People who use drugs and alcohol may lose their sense of responsibility, become restless, irritable, paranoid, depressed, inattentive, anxious or experience sexual indifference, loss of physical coordination and appetite, coma, convulsions or even death. Persons who use drugs and alcohol face not only health risks, but also their ability to function in their personal and professional lives can be impaired as well. Some examples of this are a hangover or feeling "burnt out"; being preoccupied with plans of the next drink or "high" or slowed reflexes that can be especially dangerous while driving. Alcohol-related driving deaths are the top killer of 15 to 24 year olds.

There are danger signals that could indicate when someone is in trouble with drugs or alcohol:

- abrupt changes in mood or attitude;
- continuing slump at work or school;
- continuing resistance to discipline at home or school;
- cannot get along with friends or family;
- unusual temper flare-ups;
- increased borrowing of money;
- heightened secrecy; and
- a complete new set of friends.

The school maintains drug and alcohol education information and a list of counseling and support services, which can be obtained from the Student Services Coordinator. We have also designated a contact person (Institute Director) who is available to listen to Students regarding drug and alcohol concerns. Issues discussed with the contact person will be kept confidential.

Substance Policy

To benefit from the training at Aveda Institute, Students must be mentally alert and have a sober state of mind. We strongly support the Drug-Free Communities Support Program which does not condone the use of controlled substances and intoxicants. Students using controlled substances or intoxicants or determined to be under the influence of illegal substances will be terminated. Students that are suspected of being under the influence of substance and therefore are not able to perform all capacities of training will be dismissed for the day with no hours for the time missed.

Weapon Policy

In order to maintain a safe and peaceful learning environment we do not allow any weapons to be on your person at any time while on school grounds. Weapons include, but not limited to, guns, knives, explosive device, mace, pepper spray and any source of ammunition. If any items are used as a safety precaution that you carry with you this must be kept in your locker at all times. Any Student found with a weapon will be immediately sent home for the day and may be subject to termination.

Non Discrimination/Anti-Harassment

Aveda Institute is committed to maintaining a learning environment that is free from unlawful discrimination and harassment for all team and students. Accordingly, Aveda Institute does not discriminate in its educational programs and activities (which extends to employment and admission) based on an individual's age, ethnic origin, race, religion, color, national origin, sex, sexual orientation, gender identity or expression, military or veteran status, disability, or any other basis protected by federal, state or local law.

Unlawful harassment or discrimination may include racial epithets, slurs and derogatory remarks, images, stereotypes, jokes, posters or cartoons based on an individual's legally protected category(s). The Institute cannot resolve matters that are not brought to our attention. If you believe you have experienced or witnessed discrimination or harassment, immediately report the incident to the Campus Director or a member of corporate management. The Institute will immediately and thoroughly investigate all complaints. Individuals will not be retaliated against for bringing a complaint of discrimination or harassment. Complaints of sexual harassment, violence or discrimination should be reported to the campus Title IX Coordinator in accordance with the School's Sexual Misconduct policy located in this catalog.

Statement of Non-Discrimination and Accommodation

[insert school name] ("the School") does not discriminate on the basis of disability. Individuals with disabilities (including pregnant students as applicable) are entitled to a reasonable accommodation to ensure that they have full and equal access to the School's educational resources, consistent with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794) ("Section 504") and the Americans with Disabilities Act (42 U.S.C. § 12182) ("ADA"), their related statutes and regulations, and corresponding state and local laws.

Section 504 prohibits discrimination on the basis of disability in any program or activity receiving federal financial assistance. The ADA prohibits a place of public accommodation from discriminating on the basis of disability. The applicable law and regulations may be examined in the office of the ADA/Section 504 Compliance Coordinator, or his/her trained designee who has been designated to coordinate the efforts of the school to comply with Section 504 and ADA.

Requests for Accommodation

Individuals with disabilities wishing to request an accommodation must contact the ADA/Section 504 Compliance Coordinator (Campus Director). A disclosure of a disability or a request for accommodation made to any staff, faculty, or personnel other than the Campus Director will not be treated as a request for an accommodation. However, if a student discloses a disability to such an individual, the individual is required to direct the student to the Campus Director. Upon request, the Campus Director will provide a student or applicant with a Request for Accommodations form, which is also available on the School's website under the Consumer Information tab. To help ensure timely consideration and implementation, individuals making a request for an accommodation are asked to contact the ADA/Section 504 Compliance Coordinator and/or submit a Request for Accommodations form at least two weeks prior to when the accommodation is needed.

Individuals requesting reasonable accommodation may be asked to provide medical documentation substantiating his/her physical and/or mental impairment(s) and/or the need for the requested accommodation(s), including but not limited to when the limitation or impairment is not readily apparent and/or a requested accommodation does not clearly relate to the impairment(s). Such documentation should specify that a student has a physical or mental impairment and how that impairment substantially limits one or more major life activities. In general, the supporting documentation must be dated less than three years from the date a student requests a reasonable accommodation, and must be completed by a qualified professional in the area of the student's disability, as detailed in the full policy on the website and in the request form.

Documentation used to evaluate the need and reasonableness of potential accommodations may include a licensed professional's current medical diagnosis and date of diagnosis, evaluation of how the student's disability affects one or more of the major life activities and recommendations, psychological and/or emotion diagnostic tests, functional effects or limitations of the disability, and/or medications and recommendations to ameliorate the effects or limitations. The School may request additional documentation or testing as needed.

After the Campus Director receives the Request Form and the required documentation, they will engage the student or applicant in an interactive process to determine what accommodations may be appropriate.

The process the School uses to determine when a requested accommodation constitutes a fundamental alteration of a program or activity is conducted on a case-by-case basis. Generally, if an accommodation reduces the academic standards of the School the School will deny the accommodation and deem it unreasonable. Students/applicants are provided reasoning for denial of a requested accommodation in writing.

If the student or applicant is denied any requested accommodation, the student may file a grievance using the Grievance Process below or the student may file a complaint with the U.S. Department of Education's Office for Civil Rights or a similar state entity. The School will make appropriate arrangements to ensure that a person with a disability is provided other accommodations, if needed, to participate in this grievance process. The ADA/Section 504 Compliance Coordinator will be responsible for such arrangements.

Grievance Policy Relating to Complaints of Disability Discrimination

The School has adopted an internal grievance procedure providing for prompt and equitable resolution of complaints alleging any action prohibited by Section 504 and/or the ADA. Any person who believes they have been subjected to discrimination on the basis of disability (including pregnancy as applicable) and/or disagreements regarding requested accommodations, may file a grievance with Karling Cosca, kcasca@igaveda.com. Grievances must be in writing, contain the name and address of the person filing it, state the problem or action alleged to be discriminatory, and the remedy or relief sought.

The School will investigate each complaint filed, and will not retaliate against anyone who files a grievance or cooperates in the investigation of a grievance. All reasonable efforts will be made to provide a written determination to the student or applicant within 30 days after its filing. If a written determination cannot be made within 30 days of the complaint's filing, the student will be advised and provided an update as to the status of the investigation. The student may also inquire as to the status of the investigation at reasonable intervals. Based on the results of the investigation, the School will take all appropriate actions to prevent any recurrence of discrimination and/or to correct any discriminatory effects.

The availability and use of this grievance procedure does not prevent a person from filing a complaint of discrimination on the basis of disability with the U. S. Department of Education's Office for Civil Rights and/or a similar state agency.

Aveda Institute Avondale Campus Sexual Misconduct Policy

Aveda Institute (the "Institute") is committed to providing a work and educational environment free of unlawful discrimination, harassment and retaliation. The Institute does not discriminate on the basis of sex and prohibits sex discrimination in any education program or activity that it operates, as required by Title IX and its regulations, including in admission and employment. Discrimination on the basis of sex includes discrimination on the basis of sex stereotypes, sex characteristics, pregnancy or related conditions, sexual orientation, and gender identity. Sex-based harassment is a form of sex discrimination.

Inquiries about Title IX may be referred to the Institute's Title IX Coordinator, the U.S. Department of Education's Office for Civil Rights, or both. The Institute's Title IX Coordinator is:

Aveda Institute Avondale Title IX Deputy Coordinator:
Miranda Salviano, 520.260.9675, msalviano@avedaavondale.com

Aveda Inspire Greatness Institutes Title IX Coordinator:
Karling Cosca, 520.730.8454, kcosca@igaveda.com

The Institute's full Title IX rule, Aveda Institute nondiscrimination policy and grievance procedures can be found at <https://avedainspiregreatness.com/consumer-information/>

Parenting and Pregnant Students

The Institute does not discriminate in its education program or activity against any student based on the student's current, potential, or past pregnancy or related conditions. The Institute does not engage in prohibited discrimination when it allows a student, based on pregnancy or related conditions, to voluntarily participate in a separate portion of its education program or activity. The Institute ensures that the separate portion is comparable to that offered to students who are not pregnant and do not have related conditions.

When a student, or a person who has a legal right to act on behalf of the student, informs any employee of the Institute of the student's pregnancy or related conditions, unless the employee reasonably believes that the Title IX Deputy Coordinator has been notified, the employee promptly provides that person with the Title IX Deputy Coordinator's contact information and informs that person that the Title IX Coordinator can coordinate specific actions to prevent sex discrimination and ensure the student's equal access to education programs or activities.

The Institute does not require supporting documentation unless the documentation is necessary and reasonable for the Institute to determine the reasonable modifications for the qualifying student.

The Institute ensures that reasonable modifications to the policies, practices, or procedures will be provided as necessary to prevent sex discrimination and ensure equal access to the education programs or activities. Each reasonable modification is based on the student's individualized needs, including but not limited to: voluntary leave, breaks, intermittent absences to attend medical appointments, access to online education, changes in schedule or course sequence, extensions of time for coursework, allowing a student to sit or stand, changes in physical space or supplies.

The Institute ensures parenting students can access a lactation space that is clean, shielded from view, free from intrusion from others, and may be used by a student for expressing breastmilk or breastfeeding as needed. For information, contact the Campus Director.

Arbitration Agreement and Class Action Waiver

As a condition for enrollment in the Aveda Institute, students enter into an agreement which provides that all disputes between a student and Aveda Institute will be resolved by binding arbitration. Students thus give up their right to go to court to assert or defend their rights under their enrollment agreement (except for matters that may be taken to small claims court).

* A student's rights will be determined by a neutral arbitrator and not a judge or jury.

* Students are entitled to a fair hearing, but the arbitration procedures are simpler and more limited than rules applicable in court.

* Arbitrator decisions are as enforceable as any court order and are subject to very limited review by court. As a further condition for enrollment, students also agree that any dispute or claim that they may bring will be brought solely in the student's individual capacity, and not as a plaintiff or class member in any purported class action, representative proceeding, mass action or consolidated action.

*Aveda Institute will not to use any pre-dispute agreement to stop you from being part of a class action lawsuit in court. You may file a class action lawsuit in court, or you may be a member of a class action lawsuit even if you do not file it. This provision applies only to class action claims concerning our acts or omissions regarding the making of the Federal Direct Loan or the provision by us of educational services for which the Federal Direct Loan was obtained. We agree that the court has exclusive jurisdiction to decide whether a claim asserted in the lawsuit is a claim regarding the making of the Federal Direct Loan or the provision of educational services for which the loan was obtained.
